

SEED ROUND · SEPTEMBER 2026

Relay Voice

The phone system support teams actually like.

Support phones are stuck in 2009

- Mid-size support teams still run phones on legacy PBX or a sales dialer that was never built for inbound.
- Agents switch between the phone, the helpdesk and a spreadsheet of callbacks. Average handle time is 9.4 minutes; 2.1 of them are after-call admin.
- Managers cannot see queue health in real time, so staffing is guesswork.

What Relay does

- Browser and mobile softphone with the customer's helpdesk ticket open beside the call.
- Smart routing by skill, language and ticket history; callbacks instead of hold music.
- Live queue wallboard and a weekly staffing forecast from your own call pattern.
- Installs in an afternoon. Integrates with Zendesk, Intercom, HubSpot and Salesforce.

Traction

PAYING CUSTOMERS

1,900

AGENT SEATS

112%

NET REVENUE RETENTION

Launched January 2026. Average customer has 30 seats and pays \$2,370 a month. Logo churn to date: 3 customers, all under 10 seats.

Business model

- Per-seat subscription, \$79 per agent per month, billed annually.
- Usage: call minutes passed through at cost plus 15%.
- Gross margin 72% blended; telephony is the main cost of revenue.
- Average contract value \$28k.
- Sales cycle 34 days, inbound-led; two account executives.
- CAC payback 7 months on the last two cohorts.

Market

- About 48,000 companies in North America and Europe run support teams of 10 to 300 agents on a dedicated phone channel.
- At our current average contract value that is a \$1.3B annual serviceable market.
- The broader cloud contact-center market is larger but dominated by enterprise suites; we do not count it.

Competition

	Relay	Aircall	Dialpad	Legacy PBX
Built for inbound support	Yes	Partly	No	No
Helpdesk context on call	Native	Integration	Integration	None
Staffing forecast	Yes	No	No	No
Price per seat	\$79	\$70	\$95	Varies

Team

- Mara Lindqvist, CEO. Ran a 140-agent support organisation at Klarna; before that product at Zendesk Talk.
- Owen Achebe, CTO. Built the voice stack at a telehealth company; WebRTC contributor.
- Priya Nair, Head of Sales. First sales hire at Intercom in EMEA.
- Team of 12: 7 engineering, 2 sales, 2 support, 1 ops.

The raise

- Raising \$3.5M seed on a post-money SAFE.
- Use of funds: 5 engineers (forecasting and quality analytics), 2 account executives, SOC 2 Type II.
- Goal: \$250k MRR and 180 customers by December 2027.

Thank you
